---

**Hi Sundee,**

**Yes, we would like both the study reports and associated raw data. My 6(a)(2) predecessor suggested a study request like this one should take about a month. But we understand you may need a little extra time to meet formatting guidelines.**

**Looking forward to working with you.**

**Sincerely,**

**Bob**

**Dear Mr. Miller,**

I hope you are doing well. Could you please confirm that you want both the actual Study Reports and the associated Raw Data? Your e-mail mentions the Study Reports, but the attachment mentions "Raw Data and not summaries". Also, what is EPA's expectation regarding the timeline for BCS to submit this data? I will share this information with my colleagues. Thank you in advance for the clarification. I hope you have a good day!

Please let me know if I can be of further assistance.  
Freundliche Grüße / Best regards,

**Subject:** Imidacloprid Studies

Dave,

I am the new 6(a)(2) Coordinator for the EPA Office of Pesticide Programs. These studies were referenced in the European and Canadian risk assessments and were either funded or produced by BayerCrop Science. I appreciate your help in sending these studies to us.

Sincerely,

Robert
